      Cars Dealership is a national car retailer with dealer branches across the United States.
      This site was built as the Full Stack Application Development Capstone project: a Django
      backend embedding a React single-page app, a Node.js/MongoDB microservice for dealers and
      reviews, and a Flask microservice for review sentiment analysis.

Task 17: get_dealers screenshot - home page before login (1 point)

The screenshot shows a web browser at the URL `http://localhost:8000/`. The page has a dark blue header with the text "Cars Dealership" on the left and navigation links "Home", "About Us", "Contact Us", "Login", and "Sign Up" on the right. The main content area is light gray and features a section titled "Dealers". Below the title is a filter "Filter by state:" with a dropdown menu set to "All". A table lists eight dealers with columns for Id, Name, City, State, and Zip. The names in the table are hyperlinks. At the bottom of the page, there is a copyright notice: "© 2026 Cars Dealership — Full Stack Application Development Capstone Project".
